

Research Day Keynote Speaker

Dr. Whendee Silver
Professor

Department of Environmental Science, Policy, and Management
University of California at Berkeley

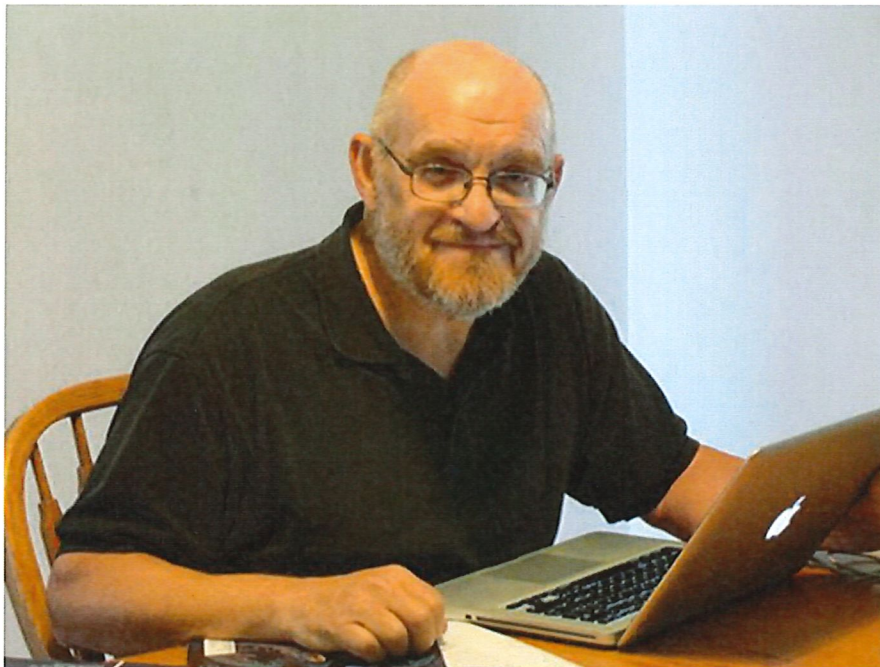

**Real world biogeochemistry: the carbon and greenhouse gas
dynamics of climate change mitigation using grasslands**

12:30 pm
March 29, 2019
Castetter Hall, Room 100

Dr. Eric Loker
Distinguished Professor
Director of the NIH COBRE CETI Program

Department of Biology
University of New Mexico

**The world's schistosomes and their snail hosts: my
personal story, with a tribute to CETI and the
comparative approach.**

Thursday, March 28th, 2019
3:30 pm, Room 100

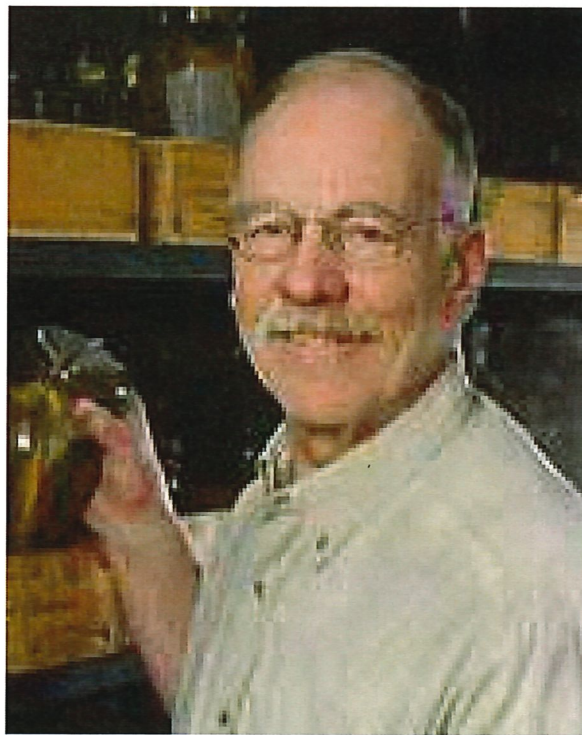

*Reception and open house to follow at the Museum of Southwestern
Biology*

Research Day Special Seminar

Dr. Jerry Smith

Professor Emeritus and Curator Emeritus

**Museum of Zoology
University of Michigan**

**Interactions among Geologic, Climatic, and Biotic
Mechanisms Determine Fish Species Persistence in
Western U.S.**

Thursday, March 28, 2019

12:30 pm, Room 100
