

Research Day Schedule, Thursday, March 28th and Friday, March 29th, 2019
(all lectures in Castetter Hall, Room 100)

Thursday

- 12:30 pm Invited lecture – Dr. Jerry Smith, Professor Emeritus and Curator Emeritus, University of Michigan
Interactions among geologic, climatic, and biotic mechanisms determine fish species persistence in western US
- 3:30 pm Biology Department Faculty Lecture – Dr. Sam Loker, Distinguished Professor & Regents' Professor, University of New Mexico
The world's schistosomes and their snail hosts: my personal story, with a tribute to CETI and the comparative approach
- 4:45 Scholarship presentations, room 100
- 5:00 pm Museum of Southwest Biology open house and full reception

Friday

- 7:00 am Breakfast for speaker and grad students, Room 107
- 8:00-11:30 Oral presentations in Castetter Hall
Coffee break for all attendees, Greenhouse
- 11:00-12:30 Lunch Buffet, Castetter Hall lower level
- 12:30-1:30 Keynote lecture – Dr. Whendee Silver - Rudy Grah Chair and Professor of Ecosystem Ecology and Biogeochemistry in the Department of Environmental Science, Policy, and Management at U.C. Berkeley
Real world biogeochemistry: the carbon and greenhouse gas dynamics of climate change mitigation using grasslands
- 1:30 – 5:00 Posters, Castetter Hall

*Silent Auction in the greenhouse 8:00 – 4:30 pm

Sunday

Museum of Southwest Biology open to the public (time TBD)
