

## To Take the Final Assessment

Go to ALEKS main menu. Select “Assignments” item from the drop down list. You will see two final assessments in the following page. You only have two chances to take the final assessment. Make sure you want to do it now.

The screenshot shows the ALEKS main menu on the left with options: Home, Learn, Review, Assignments (highlighted with a mouse cursor), Worksheet, and Calendar. The main content area shows the 'Assignments' page for 'General Chemistry Placement 1 - 2016'. At the top right of the main area, there is a progress bar showing 'Mastered: 102', 'Learned: 0', and 'Remaining: 88'. Below the progress bar, there is a search bar and a user greeting 'Hi, General!'. The 'Assignments' table has columns: Name, Type, Start, Due, Score, and Details. The table lists two assessments: 'Final assessment 1' and 'Final Assessment 2', both of which are 'Scheduled Knowledge Check' type and have a score of '-'. Both assessments are due on 09/10/2016 at 12:00 Midnight and have '1 of 1 Remaining'.

The final assessment is closed book, closed note, and accessing internet during the assessment is prohibited. You should not use any form of external help when answering assessment questions. You can use information provided by ALEKS such as calculator, periodic table, constants, etc. Make yourself fully concentrated on the assessment questions and do not interrupt your assessment before you complete it.

You can take as much time as you need to finish it. The amount of time you use will be recorded in the report. Good luck!
